SivoMIXX<sup>®</sup> 800 contains a high concentration of bacteria, 800 billion per sachet, to ensure the colonization and restoration of the gut barrier in specific health conditions.

It is a high quality product, with proven safety of use and clinically tested. Cold chain is maintained during the entire manufacturing process to ensure the viability and vitality of the bacteria.

## 8 registered strains

SivoMixx® 800 contains the microbiotic mix known as *Slab51*®, 8 different strains of lactic acid bacteria and bifidobacteria:

*S. thermophilus* DSM32245,  
*L. acidophilus* DSM32241,  
*L. plantarum* DSM32244, *L. paracasei* DSM32243, *L. helveticus* DSM32242, *L. brevis* DSM27961, *B. lactis* DSM32246, *B. lactis* DSM32247.

## Recommended daily intake

The recommended daily intake is 1 to 2 sachets. It is recommended to take SivoMixx® 800 just before bedtime.

The improvement can already be felt after a few days, the optimal colonization is achieved in 2-3 weeks.

Bloating can occur, this is a transient phenomenon due to the adaptation of your flora to the new bacteria.

## How to take SivoMixx® 800

Open the sachet and pour the contents into a glass of water or fruit juice or any other cold, non-carbonated drink. Mix well and take immediately.

Keep SivoMixx® 800 in the refrigerator (+2-8°C).

The product can stay up to one week out of the refrigerator (<25°C).
